The snow brought much excitement and joy this week! Students are developing their creative thinking and problem solving skills by playing with and in the snow - making structures, designs, and noticing the connectivity in the world. It was also an opportunity to give back to the community by helping to shovel, salt, and keep the floor dry. Thank you to everyone who helped to keep our school safe and fun!

Div 3 and 4 did a Science experiment, making snow crystals, just in time for our snowy day!
