# CAPTURED MOMENTS

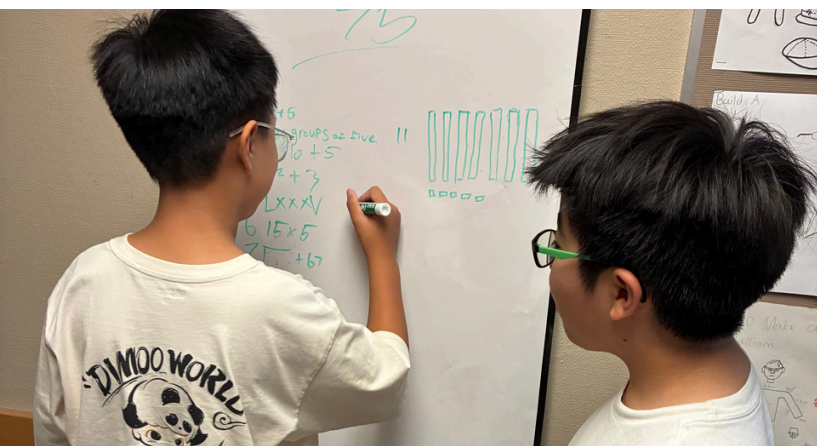

Primary students became "Kindness Ninjas", spreading messages of care and kindness throughout the school

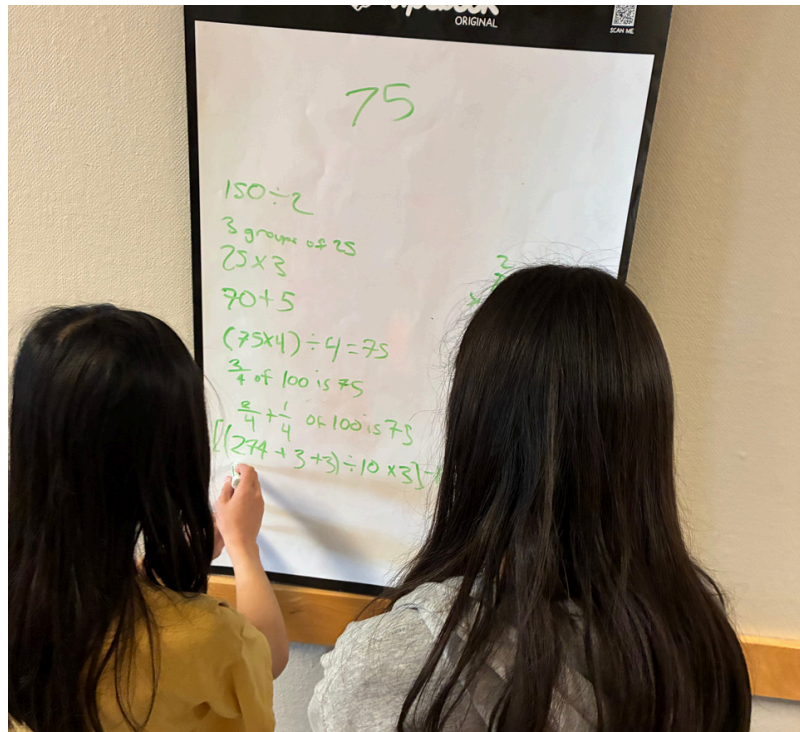

Using natural materials to build a nest - thinking about shapes, materials, and sizes.

Leaf rubbing - looking closely at the patterns and details on a leaf. How do leaves teach us about connections and changes?

Collaborative Math activity that deepens creative and critical thinking. "The answer is 75. What is the question?" Students created and explored how different orders of operation can lead to the same answer.
